[redacted] Senator Henry M. Jackson telephoned indicating he would like to quote from a part of the last hearing of the Stennis Subcommittee with the DCI present. I indicated I had some concern about a couple of points and thought it would be best if I talked with the Director. Senator Jackson agreed and later the DCI did telephone Jackson. See DCI memorandum of telephone conversation.

[redacted] Talked with [redacted]
[redacted]
the request from Senator Hickenlooper's office for unclassified information on the subject of Soviet and Chinese Communist shipping to Cuba. I then advised Mr. Pavlik, in the Senator's office, that we had very little information of an unclassified nature over and above that which is available and has been placed in the Congressional Record by Senator Barry Goldwater, adding that while we would be pleased to talk with the Senator on this subject on unclassified basis, there was little we could provide which they could use openly. I pointed out in this connection that the Lloyds of London figures did not, in our opinion, give an accurate picture of the situation as we know it on the basis of classified information. Mr. Pavlik said he thought he understood and unless the Senator desired something further he would take a look at the Lloyds of London figures.
